

Product Brochure  
Lift King LK-125 Portable Single Post Hoist

## Overview

The Lift King LK-125 Portable Single Post Hoist is extremely versatile as it can perform all the vehicle servicing jobs of a standard 2-post hoist but with the added benefits of being easily and quickly moved by one operator and it only takes up a small amount of work shop space.

The incorporated trolley jack means that when your workshop is full, you can move the hoist outside to work on your vehicles. And when you're finished with it, you can easily roll it away to a corner for storage.

It's extra heavy duty construction and sturdy base make it a very safe and stable hoist to use, and it's backed by Australian Certification design standards.

- Roll it anywhere inside or outside the work shop
  - Space saving single post design
- EXTR HIGH 2.7T lift capacity & 1920mm lift height
- Built TOUGH 865kg net weight, that's 170kg heavier than our competitors, safer & stronger!
  - Australian Certified for commercial work shops
