

Product Brochure  
Clear Floor Hoist 4.0T “Low Height”

Overview

**LIFT KING 4.0T CLEAR FLOOR “LOW PROFILE” HOIST  
only 3500mm/3700mm post height**

Our low-height clear floor hoist has a maximum height of either 3500mm or 3700mm when incorporating the height extension piece.

So for those with a lower roof that can't fit the standard taller clear floor hoist in, but still prefer a clear floor hoist over a base on floor hoist, then this is your answer!

Incorporating a low 100mm pad height, high 1900mm lift height, efficient manual single point safety lock release, wide 2600mm drive through, asymmetric 2-stage lift arms and adjustable screw up pads with optional 100mm 4WD adapters make this hoist great value for money.

The Lift King 40A is perfectly suited to the private user with a smaller garage who wants a quality built hoist at a budget price.
