

Lift King LK-SP25 Single Post Portable Hoist

Overview | Download Brochure | \$4,250.00 (inc GST)

- ✓ *Roll it anywhere inside or outside the workshop*
- ✓ *Space saving single post design*
- ✓ *2.5T lift capacity*
- ✓ *Fully electronic with electro-magnetic safety lock release*

Overview

The Lift King LK-125 Portable Single Post Hoist is extremely versatile as it can perform all the vehicle servicing jobs of a standard 2-post hoist but with the added benefits of being easily and quickly moved by one operator and it only takes up a small amount of workshop space.

The incorporated trolley jack means that when your workshop is full, you can move the hoist outside to work on your vehicles. And when you are finished with it, you can easily roll it away to a corner for storage.

It's extra heavy-duty construction and sturdy base make it a very safe and stable hoist to use, and it's Australian Certified to comply with commercial workshop requirements.
